Galaxy Prep Necessities

GALAXY Nail Prep

A multifunctional product which sanitizes the hands, nails, manicure tools and working surface. After it is applied, it evaporates quickly leaving the surface dry.

Available in 200 ml

Scent: Lemon | Melon & Orange

GLX-NPL GLX-NPM

GALAXY Dehydrator

GALAXY Nail Dehydrator is a prepping product used on natural nails, for gel nail overlays, extensions and gel polish application. It removes excess oils from the nail plate, simultaneously removing moisture, which results in better gel adhesion to the natural nail. Apply before using a nail primer.

Available in 14 ml

GLX-DH

Nail preparation

GALAXY Primer

A traditional acid-based GALAXY primer. It dehydrates and etches the nail plate providing maximum adhesion of gels and acrylates to the natural nail.

Features:

- Etches the nail plate
- Provides maximum adhesion
- Air-dries to the chalky white surface

Available in 12 ml

GLX-PR

GALAXY Primer Acid-Free

Acid-Free GALAXY primer is created as an alternative type of preparation product for gel polish and gel nail applications. This product creates a bond that acts as a "suction cup" to adhere the gel to the natural nail surface. It works for those clients who are chemically sensitive to the traditional primer.
Galaxy acid-free is chemically "matched" to all gels for greater adhesion.

Available in 12 ml

GLX-PRAF

Galaxy Base Coats

GALAXY UV Hybrid Base Coat

GALAXY UV Hybrid Base coat increases the adhesion and durability of hybrid gels - gel polishes. It is very efficient and requires the application of only a thin layer of the product.

- Curing time in the UV/LED lamp (36 W) is 30 seconds
- Curing time in the UV lamp (36 W) is 2 minutes

Available in 7 ml

GLX-BC

Clear

GALAXY LED/UV Rubber Base

Rubber base is used:

- In the gel polish application
- When strengthening natural nails
- As a base layer for gel nail extensions

Rubber Base is ideal for nails that are weak and damaged, as well as for nails that need to be strengthened to fulfill the aesthetic criteria (apex and strengthening of the stress zone, especially on nails that are flat or grow upwards). It is flexible, which enables maximum durability of the product, while at the same time strengthening the nails.

This base is recommended for:

- Thin and chipped nails
- Strong, firm, completely natural nails without damage
- Very flexible nails
- Nails that are in a constant contact with strong chemicals

Apply a thin layer of the product, and cure:
- in the UV/LED lamp (36 W) for 30 seconds
- in the UV lamp (36 W) for 2 minutes

Available in 14 ml: Clear, Sweet Pink, Bubblegum Pink, Soft Peach, Nude, Opaque Pink, Soft White.

Soft Peach | Sweet Pink | Bubblegum Pink | Opaque Pink | Nude | Soft White

GALAXY LED/UV Extension base

Extension base is used:

- In the gel polish application
- When strengthening a natural nails
- As a base layer for gel nail extensions
- For nail extension

Extension Base is ideal for nails that are weak and damaged, as well as for nails that need to be strengthened, to fulfill the aesthetic criteria (apex and strengthening of the stress zone, especially on nails that are flat or grow upwards).
It is flexible, which enables maximum durability of the product, while at the same time strengthening the nails.

This base is recommended for:

- Thin and chipped nails
- Strong, firm, completely natural nails without damage
- Very flexible nails
- Nails that are in a constant contact with strong chemicals

Apply a thin layer of the product, and cure:
- in the UV/LED lamp (36 W) for 30 seconds
- in the UV lamp (36 W) for 2 minutes

Color: Cover 1 | Cover 2 | Raw Pink | Cool Pink

Light Pink Milk | Blueberry Milk | Crisp White | Pearly White

Available in 14 ml

GALAXY Level Up Builder in a Bottle NEW

Galaxy Level Up Builder in a Bottle gel allows nail technicians of all skill levels to easily sculpt extensions, overlay natural nails, or do fast fills. For easy, natural-looking nails that hold the perfect C-curve.

- For natural overlay, tip extension, sculpted nails, or dual tip.
- LED/UV curable.
- 60 seconds LED, 2 minutes UV.

Color: Porcelain | Soft Cloud | Crystal Clear | Strobing White | Pearly Sparkle

Ivory | Cashmere | Peach Milk | Light Peach Pink | Blush Pink

Sparkly Nude | Cool Nude Glow | Milkshake Pink | Mauve Pink

Available in 14 ml

GALAXY Polyacryl Gel NEW

Galaxy Polyacryl Gel combines the efficiencies of gel and acrylic. Light, odorless formula that glides on smooth without running. Easy to sculpt and file without airborne dust. For strong, flexible and lightweight nails that look and feel natural.

- For natural overlay, tip extension, sculpted nails, or dual tip.
- LED/UV curable.
- 60 seconds LED, 2 minutes UV.

Color:

Chalky White	Clear	Frosty White	Frosty Peach	Frosty Pink
Powder Rose	Vibrant Pink	Cool Pink	Pastel Lilac	

Galaxy Sculpting Gels UV/LED

GALAXY Sculpting Gel is created for natural nail overlaying, nail tip or sculpting extensions and nail refills.
It provides maximum adhesion, strength and durability of overlayed or extended nails.
Acid-free formulated gel does not contain formaldehyde nor toluene. Medium viscosity and self-leveling formula makes it easy to apply. High-quality pigments provide color stability.
Nails can be mold, pinched and sculpted in any shape and length. Nails will "hold" the shape, have strength, flexibility and feel completely natural.

GALAXY UV/LED Sculpting Gel Clear

Blue pigment addition prevents discoloration of the gel and makes it crystal clear, giving it a high gloss over an extended period of wearing. Its unique formula provides color stability. The acid-free gel does not contain formaldehyde and toluene.

- Curing time in the UV/LED lamp (36 W) is 1 minute
- Curing time in the UV lamp (36 W) is 3 minutes

15 g | 30 g | 50 g

GALAXY UV/LED Sculpting Gel Pink

Warm semitransparent pink gives the nails a natural look. High-quality pigments provide color stability. Acid-free gel does not contain formaldehyde and toluene.

- Curing time in the UV/LED lamp (36 W) is 1 minute
- Curing time in the UV lamp (36 W) is 3 minutes

15 g | 30 g | 50 g

GALAXY UV/LED Sculpting Cover Gel Nude Pink

Warm pink shade complements any "french" gel and gives an attractive look. High-quality pigments provide color stability. Acid-free gel does not contain formaldehyde and toluene.

- Curing time in the UV/LED lamp (36 W) is 1 minute
- Curing time in the UV lamp (36 W) is 3 minutes

15 g | 30 g

GALAXY UV/LED Sculpting Cover Gel Nude I

Warm beige shade complements any "french" gel and gives an attractive look. High-quality pigments provide color stability. Full coverage gel.
Acid-free gel does not contain formaldehyde and toluene.

- Curing time in the UV/LED lamp (36 W) is 1 minute
- Curing time in the UV lamp (36 W) is 3 minutes

15 g | 30 g

GALAXY UV/LED Sculpting Cover Gel Nude II

Cool nude shade with a violet undertone complements any "french" gel and gives an attractive look. High-quality pigments provide color stability. It is a full coverage gel.
Acid-free gel does not contain formaldehyde and toluene.

- Curing time in the UV/LED lamp (36 W) is 1 minute
- Curing time in the UV lamp (36 W) is 3 minutes

15 g | 30 g

GALAXY UV/LED Sculpting Cover Gel Milky Pink

Cool pink shade complements any "french" gel and gives an attractive look. High-quality pigments provide color stability. It is a full coverage gel.
Acid-free gel does not contain formaldehyde and toluene.

- Curing time in the UV/LED lamp (36 W) is 1 minute
- Curing time in the UV lamp (36 W) is 3 minutes

15 g | 30 g

GALAXY UV/LED Sculpting Gel Milky White

Medium viscosity self-leveling gel that liquefies itself when moved with a brush. High-quality pigments provide color stability. A soft milky white shade.

- Curing time in the UV/LED lamp (36 W) is 1 minute
- Curing time in the UV lamp (36 W) is 3 minutes

15 g

GALAXY UV/LED Sculpting Gel Vanilla Jelly

Medium viscosity self-leveling gel that liquefies itself when moved with a brush. High-quality pigments provide color stability. A warm light vanilla shade.

- Curing time in the UV/LED lamp (36 W) is 1 minute
- Curing time in the UV lamp (36 W) is 3 minutes

15 g

GALAXY UV/LED Sculpting Gel Opaque Sparkle Jelly Nude

Medium viscosity self-leveling gel that liquefies itself when moved with a brush. High-quality pigments provide color stability. A full coverage cool nude shade with a violet undertone and multicolor micro flitter, complements any "french" gel and gives an attractive look.

- Curing time in the UV/LED lamp (36 W) is 1 minute
- Curing time in the UV lamp (36 W) is 3 minutes

15 g

GALAXY UV/LED Sculpting Gel Moonlight Rose Jelly

Medium viscosity thixotropy gel that liquefies itself when moved with a brush. High-quality pigments provide color stability. A full coverage cool nude shade with a beige violet undertone compliments any "french" gel and gives an attractive look. Pudding jelly-like structure allows sculpting to perfection.

- Curing time in the UV/LED lamp (36 W) is 1 minute
- Curing time in the UV lamp (36 W) is 3 minutes

15 g | 30 g

GALAXY UV/LED Sculpting Gel Skin Deep Jelly

Medium viscosity thixotropy gel that liquefies itself when moved with a brush. High-quality pigments provide color stability. A full coverage intense nude pink shade with a violet undertone compliments any "french" gel and gives an attractive look. Pudding jelly-like structure allows sculpting to perfection.

- Curing time in the UV/LED lamp (36 W) is 1 minute
- Curing time in the UV lamp (36 W) is 3 minutes

15 g | 30 g

GALAXY UV/LED Sculpting Gel Like a Skin Jelly

Medium viscosity thixotropy gel that liquefies itself when moved with a brush. High-quality pigments provide color stability. A full coverage cool nude shade with a violet undertone and multicolor micro fitter, complements any "french" gel and gives an attractive look. Pudding jelly-like structure allows sculpting to perfection.

- Curing time in the UV/LED lamp (36 W) is 1 minute
- Curing time in the UV lamp (36 W) is 3 minutes

15 g | 30 g

GALAXY UV/LED Sculpting Gel Glam Nude Jelly

Medium viscosity thixotropy gel that liquefies itself when moved with a brush. High-quality pigments provide color stability. Full coverage cool nude shade with violet undertone and multicolor micro glitter complements any "french" gel and gives an attractive look. Pudding jelly-like texture allows sculpting to perfection.

- Curing time in the UV/LED lamp (36 W) is 1 minute
- Curing time in the UV lamp (36 W) is 3 minutes

15 g | 30 g

Galaxy UV Hybrid Gel Polishes

GALAXY UV HYBRIDS are a perfect solution for clients who are not into hard gels and would like to sustain their natural nails.
Specially formulated as a 100% pure soak off gel Galaxy UV Hybrid will ensure long-lasting, chip free, perfect manicure to all your clients.
Application of Galaxy UV Hybrid is the same as traditional polish application. Products needed for perfect manicure are Base Coat - in one thin layer, color of choice - two thin layers and a Top Coat - one thin layer again.
Thanks to LED/UV lamps, the whole application process takes less than 30 minutes.
They are also very easy to remove, it takes only 10 minutes and Soak off Remover is a product that helps with the process.

Galaxy UV Hybrid Base Coat & Top Coat

GALAXY UV Hybrid Base Coat

Galaxy UV Hybrid Base coat increases the adhesion and durability of hybrid gels - gel polishes. It is very efficient and requires the application of only a thin layer of the product.

- Curing time in the UV/LED lamp (36 W) is 30 seconds
- Curing time in the UV lamp (36 W) is 2 minutes

Available in 7 ml

GLX-BC

GALAXY UV Hybrid Top Coat

Galaxy UV Hybrid Top Coat is formulated to ensure long-lasting high shine and color durability. Special anti-yellow formula infused with UV filters and optical brighteners ensures high shine and color sustainability.
Light texture and self-leveling formula make it easy to apply.

- High shine gloss
- Non-yellowing
- Color protective
- No chipping

- Curing time in the UV/LED lamp (36 W) is 30 seconds
- Curing time in the UV lamp (36 W) is 2 minutes

Available in 7 ml

GLX-TC

GALAXY UV Hybrid Gel Polish

Galaxy UV Hybrid is an innovative formulated gel polish available in a fantastic range of colors.
High gloss finish and a superior long-lasting performance of Galaxy UV Hybrid will forever revolutionize the way you manicure nails.
Innovative formula, high-technology production and specially selected and prepared pigments make Galaxy UV Hybrid the top quality gel polish on the cosmetics market.

In order to avoid shrinkage with dark and highly pigmented colors of gel polish (black, white, dark green, dark purple etc), it is recommended to apply two evenly thin coats of the color and cure each of them full curing time.

Pay particular attention:

- if UV lamp is used, it has to be at least 36 W
- if UV/LED lamp is used, it has to be at least 36 W

• Curing time in the UV/LED lamp (36 W) is 30 seconds
• Curing time in the UV lamp (36 W) is 2 minutes

Available in 7 ml

For manicure and pedicure.

Made of cellulose, leave nail surface free of fibes.

Packing contains 100 pcs.

GLX619-A

Galaxy Soak off Remover

GALAXY Soak off Remover with Lanoline

Perfect solution for gel polish removal without damaging the natural nails.
Galaxy Soak off Remover with Lanoline is formulated to nourish and moisturize the skin surrounding the nail and the natural nail itself, preventing it from splitting, breakage and dehydration.

Features:

- Removes gel polish easily
- Nourishes the cuticles and natural nails
- Has a pleasant scent

Available in: 90 ml, 150 ml, 300 ml

Galaxy Gel Polish Remover Foils NEW

GALAXY Gel Polish Remover Foils

- Aluminum foil wrap for fast and easy gel polish removal.
- Every foil wrap has a pad.
- Use adequate removing product.

Packaging contains 100 pcs.

GLX620-A

Galaxy Nail Polish

Galaxy Base Coat

Galaxy Nail Polish Base Coat

Nail Polish Base Coat is a crystal clear foundation for later application of nail polishes.
It prevents discoloration and yellowing, enabling better nail polish adhesion onto the natural nail, ensuring long-lasting wear.

5-free formulation not containing: toluene, formaldehyde, xylene, camphor nor TPHP.

Available in 12 ml

GLX-210

GALAXY Diamond Infused Base Coat

Galaxy Diamond Infused Nail Polish Base Coat is a clear foundation and nail strengthener for later application of nail polishes. Diamond dust infused into the base gives the nails strength, enabling better nail polish adhesion to the natural nail and ensuring long-lasting wear.

5-free formulation not containing toluene, formaldehyde, xylene, camphor, nor TPHP.

Available in 12 ml

GLX-211

Galaxy Nail Polish

Galaxy Nail Polishes are based on a highly pigmented formula, resulting in long-lasting color and better adherence.
Specially designed jumbo brush makes the application easy in one simple stroke.
Available in a lavish color palette, for all seasons and tastes, from soft pastel colors, over intensive orange and seductive red, all the way to romantic purple tones and various neon, glitter, metallic and shimmer shades.

5-free formulation not containing toluene, formaldehyde, xylene, camphor nor TPHP.

For a perfect manicure, it is best to use the following:

- Galaxy Base Coat
- Galaxy Top Coat (for the fullness and gel-like glossy high shine)
- Galaxy Matte Top Coat (for elegant matte effect)

Characteristics:

- 5-free formula
- Cruelty free – not tested on animals
- Fast drying and durable for up to 10 days
- Due to their rich pigmentation, they are the exellent choice for stamping nail art

GALAXY Nail Polish Top Coat

Top Coat gives your manicure a perfect glossy finish preventing discoloration thanks to the anti-yellow formulation.
The original formulation allows it to penetrate deeper into the nail polish and dries fast, making nails stronger, chip-free and less prone to breakage.

One coat application ensures a perfect long-lasting glossy finish.

5-free formulation not containing toluene, formaldehyde, xylene, camphor nor TPHP.

Available in 12 ml

GLX-210

GALAXY Instant Gel Effect Top Coat

Instant Gel Effect Top Coat delivers the plumping effect of gel polish in a glassy, high-shine finish without using a UV/LED light.

It can be removed with a nail polish remover.

- High shine
- Long-lasting
- Easy to remove
- Fast drying

Available in 12 ml

GLX-213

GALAXY Nail Polish Matte Top Coat

Galaxy Matte Top Coat gives your manicure a perfect velvety matte finish preventing discoloration thanks to its anti-yellow formulation. Original formulation allows it to penetrate deeper into the nail polish and dries fast, making nails stronger, chip-free and less prone to breakage.

One coat application ensures a perfect long-lasting velvety matte finish.

5-free formulation not containing toluene, formaldehyde, xylene, camphor nor TPHP.

Available in 12 ml

NPMTC

Galaxy Hand & Nail Care

GALAXY Silk Paste Hand Scrub

Galaxy Silk Paste Hand Scrub will help hands to regain a youthful, radiant and nourished appearance.

Fine sugar crystals, shea butter, and green olive oil will gently exfoliate your hands and improve blood circulation, helping your skin become softer, nourished, more elastic and radiant. Infused vitamins and panthenol will reduce redness and soothe irritation.

Available in 150 ml

GLX-SP

Galaxy Hand & Nail Care

GALAXY Serum for Hands & Nails

Galaxy Serum for Hands & Nails will easily give your hands healthy, smooth and soft appearance thanks to its rich formula.
Grape seed, argan, green olive, and soy oils infused in the serum have a moisturizing, softening and smoothing effect. This serum provides care for dry, loose skin and skin exposed to harmful external factors.

Available in 75 ml

GLX-216

Galaxy Nail Treatment Vitamin Cocktail

Galaxy Nail Care Treatment Vitamin Cocktail promotes maximum nail growth and helps fortify the nails keratin to resist splitting, cracking and chipping. Increases the level of oxygen in the nails and keeps the nails hydrated.
Nails are noticeably restructured to a stronger, thicker, smoother, harder yet flexible condition that resists breaking, splitting and chipping after 4 weeks of regular use. It helps to restore the natural moisture balance making nails more flexible and giving them UV protection to prevent yellowing and the discoloration of nails. It is easily applied, and dries quickly, leaving a high shine finish.

Key ingredients:
- Apple stem cells
- Hexanal, medically tested and patented aldehyde
- Complex of mineral compound
- Seaweed
- Marine minerals
- Silicium compound
- Godji extract
- Vitamin A palmitate
- Vitamin E acetate
- Vitamin C derivative
- Horse chestnut extract
- Amino acid

Usage directions:
Apply on a clean nail.
As a base coat: protects your nails and increases the long lasting effect.
For shiny nails: apply two coats.
For healthy nail growth: repeat the application every week.

Galaxy Nail Tips

GALAXY Standard Nail Tips Natural

Made of ABS plastic which makes them thin, flexible and extremely durable. Tips are slightly bent down with square edges to achieve a completely natural look of extended nails. They are symmetrically curved for better side adherence and retaining the form when clipped to a shorter size.

Packaging of 400 pcs, 40 pcs of each size.

Packaging of 250 pcs, 25 pcs of each size.

Packaging of 100 pcs, 10 pcs of each size.

Packaging of 50 pcs, each individual size

Galaxy Gel Tips NEW

GALAXY Gel Tips

Flexible gel tips for simple and quick nail art. The tips have a curve, which enables better adhesion to the nail. When shortened to any length, they retain their shape. High-quality and specific manufacturing technology has achieved durability of nails as well as resistance to cracking.

The package contains 120 pieces in 10 sizes.

How to use:

- Prepare natural nails with a 180/180 grit file;
- Dehydrate the nail;
- Place on the tip and fix with Rubber Base;
- Shape the nail and matt the surface;
- Apply paint and dry in a lamp;
- Apply Top Coat.

GLX653

Galaxy Dual System Tips NEW

GALAXY Dual System Extension Forms

Dual system tips for quick and easy nail extension creation. Due to easy gel, poly gel or acrylic dosing, during nail extension creating and shorter shaping time, the desired form and length are easily achieved. The tips are made of plastic (ABS), reusable.

The package contains 120 pieces in 10 different sizes.

- Prepare the nail;
- Apply the required amount of gel, poly gel or acrylic to the inside of the tip;
- Place the tip on the nail plate, press slightly, so that the product is evenly distributed to the edges of the nail (for the best result, use a clip for dual tips);
- After cure carefully remove the tip;
- If necessary, file the shape;
- Finish with gel polish or color gel;
Apply a top coat.

GALAXY600 UV/LED Lamp

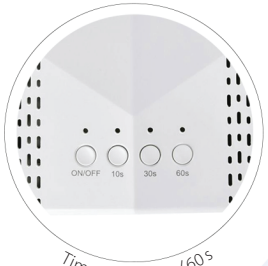

GALAXY600 is a professional lamp that cures all UV and LED gel products.
Due to simultaneous double light source of 365 nm (nanometers) and 405 nm (nanometers), it is perfect for fast curing of:

- UV and LED/UV builder gels
- UV and LED/UV color gels
- UV and LED/UV gel polishes
- UV and LED/UV top coats (matte or glossy)

FEATURES:

- 30 LED diodes
- Maximum lamp power: 48 W
- Input operation mode: AC 100-240 V, 50/60 Hz, 1 A
- Output operation mode: DC 24 V 1.5 A
- Dimensions: 150 mm x 190 mm x 85 mm
- Timer: 10 s / 30 s / 60 s
- Continous 90 seconds mode

Lamp power: 48 W

Timer: 10 s / 30 s / 60 s

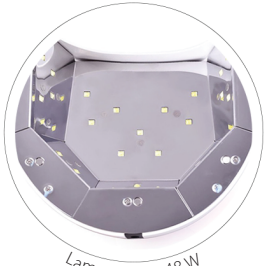

GALAXY700 UV/LED Lamp Low Heat Function

GALAXY700 is a professional lamp that cures all UV and LED/UV gel products.
Due to simultaneous double light source of 365 nm (nanometers) and 405 nm (nanometers), it is perfect for fast curing of:

- UV and LED/UV builder gels
- UV and LED/UV color gels
- UV and LED/UV gel polishes
- UV and LED/UV top coats (matte or glossy)

FEATURES:

- 27 LED diodes;
- Maximum lamp power: 48 W
- Input operation mode: AC 100-240 V, 50/60 Hz, 1 A
- Output operation mode: DC 24 V 1.5 A
- Dimensions: 200 mm x 170 mm x 100 mm
- Timer: 30 s / 60 s / 90 s
- Low heat mode: 120 s
- Sensor time: 90 s
- Removable tray
- Comes with 3 rubber top covers in different color (purple, pink and white)

Lamp power: 48 W

Removable tray

Three rubber top covers in different color:

purple pink white

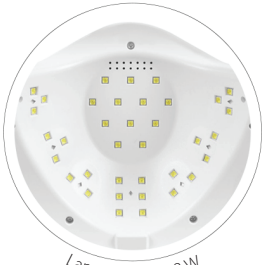

GALAXY400 UV/LED Lamp Smart 2.0 Sistem

GALAXY400 is a professional lamp that cures all UV and LED gel products.
Due to simultaneous double light source of 365 nm (nanometers) and 405 nm (nanometers), it is perfect for fast curing of:

- UV and LED/UV builder gels
- UV and LED/UV color gels
- UV and LED/UV gel polishes
- UV and LED/UV top coats (matte or glossy)

FEATURES:

- 36 LED diodes
- Maximum lamp power: 48 W
- Input operation mode: AC 100-240 V, 50/60 Hz, 1 A
- Output operation mode: DC 24 V 1.5 A
- Dimensions: 237 mm x 208 mm x 114 mm
- Timer: 10 s / 30 s / 60 s
- Low heat mode: 90 s
- Sensor time: 120 s
- Smart 2.0 sistem

Lamp power: 48 W

Timer: 10 s / 30 s / 60 s

GALAXY100 UV/LED Lamp

GALAXY100 is a lamp for curing UV and LED gel products.

It is recommended for personal use.

Note:
During usage, pay attention that the diodes within the lamp, positioned in the shape of the letter "U", must be above the nail bed.

Thanks to the ability to simultaneously transmit both light-emitting diodes of 365 nm (nanometers) and 405 nm (nanometers), it is designed for quick curing:

- UV and LED/UV building gels
- UV and LED/UV colored gels
- UV and LED/UV permanent varnishes
- UV and LED/UV top coats (matte or shiny)

FEATURES:

- Maximum lamp power: 24 W
- Input mode: AC 100-240 V, 50 / 60 Hz, 0.5 A
- Output mode: DC 24 V 0.65 A
- Dimensions: 210 mm x 120 mm x 80 mm
- Timer: 60 s / 90 s
- Automatic sensor: 30 s

Lamp power: 24 W

Timer: 60 s/90 s
